Contents of Volume 22

Number 1, January 1992

Review: HLA and disease: from epidemiology to immunotherapy
R. R. P. de Vries 1

Review: Haemodynamics effects of H_2-receptor antagonists
H. Hinrichsen, A. Halabi and W. Kirch 9

Hypersensitivity to ADP of platelets from diabetic rats associated with enhanced fibrinogen binding
P. D. Winocour, D. W. Perry and R. L. Kinlough-Rathbone 19

Vasoactive intestinal polypeptide (VIP) and peptide histidine methionine (PHM) in human penile corpus cavernosum tissue and circumflex veins: localization and *in vitro* effects
H. J. Kirkeby, J. Fahrenkrug, F. Holmquist and B. Ottesen 24

Glucagon-independent renal hyperaemia and hyperfiltration after an oral protein load in Child A liver cirrhosis
N. G. De Santo, P. Anastasio, C. Loguercio, C. del Vecchio Blanco, G. Capasso, S. Coppola, L. Bellini, G. Spagnuolo, P. Federico, R. Alfieri, A. Lombardi, M. Policastro and A. Perrelli 31

The influence of erythrocyte shape on suspension viscosities
W. H. Reinhart, M. Singh-Marchetti and P. W. Straub 38

Clinical pharmacokinetic studies of a human haemopoietic growth factor, GM-CSF
D. Hovgaard, B. T. Mortensen, S. Schifter and N. I. Nissen 45

Sodium–lithium countertransport kinetics in normal and hypertensive human pregnancy
P. A. Rutherford, T. H. Thomas, S. MacPhail and R. Wilkinson 50

Effect of endothelin-1 in man: pretreatment with nifedipine, with indomethacin and with cyclosporine A
H. Vierhapper, O. F. Wagner, P. Nowotny and W. Waldhäusl 55

Somatostatin does not block the effect of vasoactive intestinal peptide in bile secretion in man
B. Nyberg, B. Angelin and K. Einarsson 60

Skin blood cell flux in insulin-dependent diabetic subjects in relation to retinopathy or incipient nephropathy
A. J. H. M. Houben, N. C. Schaper, D. W. Slaaf, G. J. Tangelder and A. C. Nieuwenhuijzen Kruseman 67

Instructions to authors

Number 2, February 1992

Transport of L-leucine hydroxy analogue and L-lactate in human small intestinal brush border membrane vesicles
M. Friedrich, H. Murer, E. Sterchi and E. G. Berger 73

Plasma homocysteine before and after methionine loading with regard to age, gender, and menopausal status
A. Andersson, L. Brattström, B. Israelsson, A. Isaksson, A. Hamfelt and B. Hultberg 79

Apolipoprotein C-II deficiency syndrome due to apo $C\text{-}II_{Hamburg}$: clinical and biochemical features and *Hph*I restriction enzyme polymorphism
F. U. Beil, S. S. Fojo, H. B. Brewer Jr, H. Greten and U. Beisiegel 88

Plasma triglyceride and low density lipoprotein metabolism
M. J. Caslake, C. J. Packard, J. J. Series, B. Yip, M. M. Dagen and J. Shepherd 96

Erythrocytes with covalently bound fibrinogen as a cellular replacement for the treatment of thrombocytopenia
G. Agam and A. A. Livne 105

Trichosanthin treatment of HIV-induced immune dysregulation
R. A. Mayer, P. A. Sergios, K. Coonan and L. O'Brien 113

The ontogeny and site of intestinal lipid and lipoprotein synthesis
M. Mehran, L. Thibault, P. Russo, C. Garofalo and E. Levy 123

The characterization of a mutation of the 3′ flanking sequence of the α_1-antitrypsin gene

commonly associated with chronic obstructive airways disease
K. Morgan, G. Scobie and N. Kalsheker 134

Different immunologic properties of the globular NC1 domain of collagen type IV isolated from various human basement membranes
M. Weber and O. Pullig 138

Number 3, March 1992

Relationship of insulin clearance and secretion to insulin sensitivity in non-diabetic Mexican Americans
S. M. Haffner, M. P. Stern, R. M. Watanabe and R. N. Bergman 147

Comparison of the effect of GIP and GLP-1 (7–36amide) on insulin release from rat pancreatic islets
E. G. Siegel, A. Schulze, W. E. Schmidt and W. Creutzfeldt 154

Determinations of fasting plasma triglyceride levels: metabolism of hepatic and intestinal lipoproteins
J. A. Cortner, N.-A. Le, P. M. Coates, M. J. Bennett and D. R. Cryer 158

Plasma apolipoprotein A-IV metabolism in patients with chronic renal disease
H. Dieplinger, E.-M. Lobentanz, P. König, H. Graf, C. Sandholzer, E. Matthys, M. Rosseneu and G. Utermann 166

Raised concentrations of carboxy terminal propeptide of type IV (basement membrane) procollagen (NC1) in serum and urine of patients with glomerulonephritis
K. Keller, Y. Lyreal Ser and D. Schuppan 175

Thromboxane mediates glomerular haemodynamics in a model of chronic glomerular disease
F. Thaiss, M. J. Mihatsch, W. Schoeppe and R. A. K. Stahl 182

Alterations in lipoprotein density classes in infantile visceral Leishmaniasis: presence of apolipoprotein SAA
E. D. Bekaert, E. Dole, D. Y. Dubois, M.-E. Bouma, J-F. Lontie, R. Kallel, C. L. Malmendier and M. Ayrault-Jarrier 190

Interleukin-8 and neutrophil activation in acute pancreatitis
V. Gross, R. Andreesen, H.-G. Leser, M. Ceska, E. Liehl, M. Lausen, E. H. Farthmann and J. Schölmerich 200

Increase of glomerular-filtration rate and renal plasma flow by insulin-like growth factor-1 during euglycaemic clamping in anaesthetized rats
U. Baumann, T. Eisenhauer and H. Hartmann 204

Effect of endothelin on normal and diseased human coronary arteries
A. H. Chester, G. S. O'Neil, S. P. Allen, T. N. Luu, S. Tadjkarimi and M. H. Yacoub 210

Hyperhomocysteinaemia in stroke: prevalence, cause, and relationships to type of stroke and stroke risk factors
L. Brattström, A. Lindgren, B. Israelsson, M. R. Malinow, B. Norring, B. Upson and A. Hamfelt 214

Erratum 222

Number 4, April 1992

The human renal 25-hydroxyvitamin D_3-1α-hydroxylase: properties studied by isotope-dilution mass spectrometry
Y. Hagenfeldt and T. Berlin 223

Uptake of chylomicron remmant retinyl esters in human leukocytes *in vivo*
B. Skrede, R. Blomhoff, G. M. Maelandsmo, L. Ose, O. Myklebost and K. R. Norum 229

Defect of epidermal 12(S)-hydroxyeicosatetraenoic acid receptors in psoriasis
P. Arenberger, L. Kemény and T. Ruzicka 235

Incomplete suppression of hepatic glucose production in non-insulin dependent diabetes mellitus measured with [6,6-$^2H_2$]glucose enriched glucose infusion during hyperinsulinaemic euglycaemic clamps
J. K. Powrie, G. D. Smith, T. R. Hennessy, F. Shojaee-Moradie, J. M. Kelly, P. H. Sönksen and R. H. Jones 244

Erythrocyte Li^+/Na^+ and Na^+/H^+ exchange, cardiac anatomy and function in insulin-dependent diabetics
A. Semplicini, L. Lusiani, M. Marzola, G. Ceolotto, M. G. Mozzato, G. Zanette, V. Donadon, M. G. Stefanini, D. Zanuttini, A. C. Pessina 254

Identification of human urine of a natural growth inhibitor for cells derived from solid paediatric tumours
L. Schweigerer, K. Christeleit, G. Fleischmann, H. Adlercreutz, K. Wähälä, T. Hase, M. Schwab, R. Ludwig and T. Fotsis 260

Central obesity and hyperinsulinaemia in women are associated with polymorphism in the 5′ flanking region of the human insulin gene
J. U. Weaver, P. G. Kopelman and G. A. Hitman 265

Human recombinant C5a enhances lipopolysaccharide-induced synthesis of interleukin-6 by human monocytes
V. Gross and T. Andus 271

Regional effects and clearance of endothelin-1 across pulmonary and spanchnic circulation
O. F. Wagner, H. Vierhapper, S. Gasic, P. Nowotny and W. Waldhäusl 277

Glucagon-like peptide-1 cells in the gastrointestinal tract and pancreas of rat, pig and man
R. Eissele, R. Göke, S. Willemer, H.-P. Harthus, H. Vermeer, R. Arnold and B. Göke 283

Effects of interferon alpha on insulin binding and glucose transport in human adipoctyes
J. W. Kolaczynski, M.-R. Taskinen, H. Hilden, T. Kiviluoto, K. Cantell and V. A. Koivisto 292

Number 5, May 1992

Eicosanoid levels in bronchoalveolar lavage fluid of young female smokers and non-smokers
F. J. Zijlstra, J. E. Vincent, W. M. Mol, H. C. Hoogsteden, P. Th. W. Van Hal and R. C. Jongejan 301

Affinity of anti-HBs antibody after hepatitis B vaccination
M. Radkowski, T. Laskus, A. Goch and J. Ślusarzcyk 307

Stimulation of neutrophils by insoluble immunoglobulin aggregates from synovial fluid of patients with rheumatoid arthritis
J. J. Robinson, F. Watson, R. C. Bucknall and S. W. Edwards 314

Haemodynamics and renal effects of urodilation in healthy volunteers
M. Kentsch, D. Ludwig, C. Drummer, R. Gerzer and G. Müller-Esch 319

Effects of hypercholesterolemia on the nucleotide content in human blood cells
J. M. Felbel, E. A. Siess and N. Zöllner 326

Connective tissue response to major surgery and postoperative infection
H. Haukipuro, J. Melkko, L. Risteli, M. I. Kairaluoma and J. Risteli 333

The response of hepatic lipase and serum lipoproteins to acute hyprinsulinaemia in type 2 diabetes
C. Baynes, A. D. Henderson, W. Richmond, D. G. Johnston and R. S. Elkeles 341

Intrinsic hepatic clearance of indocyanine green in the pig: Dependence on plasma protein concentration
P. Ott, S. Keiding and L. Bass 347

Cellular energetics in hypothyroid muscle
D. J. Taylor, B. Rajagopalan and G. K. Radda 358

Bone mass of spine and forearm in osteoporosis and in German normals: influence of sex, age and anthropometric parameters
C. Wüster, G. Duckeck, A. Ugurel, M. Lojen, H. W. Minne and R. Ziegler 366

Number 6, June 1992

Classification of dynamical diseases by new mathematical tools: Application of multi-dimensional phase space analyses to the pulsatile secretion of parathyroid hormone
H.-M. Harms, K. Prank, U. Brosa, E. Schlinke, O. Neubauer, G. Brabant and R. D. Hesch 371

Verapamil increases serum ionized calcium and serum phosphate in patients with post-surgical hypoparathyroidism
G. Sjödén, M. Rosenqvist, J. Nordenström, I. Björkhem, S. A. V. Eriksson and E. Kriegholm 378

Effects of cholestyramine and acipimox on subfractions of plasma low density lipoprotein. Studies in normolipaemic and hypercholesterolaemic subjects
B. A. Griffin, M. J. Caslake, A. Gaw, B. Yip, C. J. Packard and J. Shepherd 383

Functional and structural determinants of glomerulosclerosis in the fawn-hooded rat
P. J. Westenend, Y. A. Nooyen, J. A. Van Der Krogt, P. Van Brummelen and J. J. Weening 391

A TaqI polymorphism in the human interleukin-1β (IL-1β) gene correlates with IL-1β secretion *in vitro*
F. Pociot, J. Mølvig, L. Wogensen, H. Worsaae and J. Nerup 396

Identification of the defective NADPH-oxidase component in Chronic Granulomatous Disease: a study of 57 European families
C. Casimir, M. Chetty, M.-C. Bohler, R. Garcia, A. Fischer, C. Griscelli, B. Johnson and A. Segal 403

Sustained high plasma 5-aminolaevulinic acid concentration in a volunteer: no porpyric symptoms
P. Mustajoki, K. Timonen, A. Gorchein, A. M. Seppäläinen, E. Matikainen and R. Tenhunen 407

Importance of beta-adrenoceptor function in fat cells for lipid mobilization
H. Wahrenberg, F. Lönnqvist, J. Hellmér and P. Arner 412

Influence of clinical findings, positional manoeuvres, and systolic ankle arterial pressure on transcutaneous oxygen tension in peripheral arterial occlusive disease
A. Scheffler, S. Eggert and H. Rieger 420

Antibodies to Cathepsin G in Crohn's disease
W. J. Mayet, E. Hermann, J. Finsterwalder, H. Reider, T. Poralla and K. H. Meyer Zum Büschenfelde 427

Attempts to accelerate glucagon absorption effects of adding a vasodilator and of injection using a 'sprinkler' needle
K. L. Simmons and G. Williams 434

Letter to the Editor 438

Number 7, July 1992

Editorial: Is cholesterol reduction always safe?
M. F. Oliver 441

Review: Cell adhesion/signalling: biology and clinical applications
M. W. Makgoba, A. Bernard and M. E. Sanders 443

Bone mineral density measured by dual-energy X-ray absorptiometry in normal men
H. Kröger and K. Laitinen 454

Human macrophages modulate the phenotype of cultured rabbit aortic smooth muscle cells through secretion of platelet-derived growth factor
N. Morisaki, N. Koyama, M. Kawano, S. Mori, K. Umemiya, T. Koshikawa, Y. Saito and S. Yoshida 461

Evidence that human kidney produces a protein similar to lithostathine, the pancreatic inhibitor of $CaC0_3$ crystal growth
J. M. Verdier, B. Dussol, P. Casanova, M. Daudons, P. Dupuy, P. Berthezene, R. Boistelle, Y. Berland and J. C. Dagorn 469

Inheritance of monoclonal rheumatoid factor cross-reactive idiotypes in primary Sjögren's syndrome (pSS). Comparative studies of a rabbit polyclonal anti-idiotype and 17109 monoclonal antiidiotype
A. G. Tzioufas, D. S. Boumba, F. N. Skopouli, D. A. Carson and H. M. Moutsopoulos 475

Patients with anticardiolipin antibodies with and without antiphospholipid syndrome: their clinical features and β2-glycoprotein-1 plasma levels
P. G. Vlachoyiannopoulos, S. A. Krills, J. E. Hunt, M. N. Manoussakis and H. M. Moutsopoulos 482

Tumor necrosis factor alpha is associated with disease activity and the degree of anemia in patients with rheumatoid arthritis
G. Vreugdenhil, B. Löwenberg, H. G. Van Eijk and A. J. G. Swaak 488

Effect of a somatostatin analogue, octreotide, on renal haemodynamics and albuminuria in acromegalic patients
R. P. F. Dullaart, S. Meijer, P. Marbach and W. J. Sluiter 494

Number 8, August 1992

The Mack-Forster Award 1992
A. C. Nieuwenhuijzen Kruseman 503

1992 Mack-Forster Award Lecture
Review: Regulation of angiogenesis *in vitro*
R. Montesano 504

Determinants of coronary effects of atrial natriuretic factor in dogs
G. Ertl, B. Bauer, P. Gaudron, M. Kolb and K. Kochsiek 516

Reappraisal of the role of insulin on sodium handling by the kidney: effect of intrarenal insulin infusion in the dog
P. Briffeuil, T. Huynh Thu and J. Kolanowski 523

Graves' immunoglobulins and cytokines stimulate the expression of intercellular adhesion molecule-1 (ICAM-1) in cultured Graves' orbital fibroblasts
A. E. Heufelder and R. S. Bahn 529

Normal lipoprotein(a) concentrations and apolipoprotein(a) isoforms in patients with insulin-dependent diabetes mellitus
I. C. Klausen, E. Berg Schmidt, H. H. Lervang, L. U. Gerdes, J. Ditzel and O. Faergeman 538

Bone mass and biochemical parameters of bone metabolism in men with spinal osteoporosis
H. Resch, P. Pietschmann, W. Woloszczuk, E. Krexner, P. Bernecker and R. Willvonseder 542

Nutritional behaviour and quality of life during oncological polychemotherapy: Results of a prospective study on the efficacy of oral nutrition therapy in patients with acute leukaemia
G. Ollenschläger, W. Thomas, K. Konkol, V. Diehl and E. Roth 546

A comparison of octreotide delivered by continuous subcutaneous infusion with intermittent injection in the treatment of acromegaly
R. A. James, M. C. White, S. Chatterjee, H. Marciaj and P. Kendall-Taylor 554

Renal reserve filtration capacity in growth hormone deficient subjects
R. P. F. Dullaart, S. Meijer, P. Marbach and W. J. Sluiter 562

Rapid Communication: Role of hepatitis C virus infection in German patients with fulminant and subacute hepatic failure
L. Theilmann, C. Solbach, U. Toex, H. M. Müller, E. Pfaff, G. Otto and T. Goeser 569

Number 9, September 1992

Review: Current concepts in the pathophysiology of hepatic encephalopathy
P. Ferenci, A. Püspök and P. Steindl 573

Insulin sensitivity and secretion in healthy elderly human subjects with 'abnormal' glucose tolerance
D. L. Broughton, J. Webster and R. Taylor 582

Increased GPII/IIIA expression and altered DNA-ploidy pattern in megakaryocytes of diabetic BB-rats
D. Tschöpe, B. Schwippert, B. Schettler, U. Kiesel, H. Rothe, P. Roesen and F. A. Gries 591

Severe type III hyperlipoproteinemia associated with unusual apolipoprotein E1 phenotype and ε1/'null' genotype
G. Feussner, H. Funke, W. Weng, G. Assmann, K. J. Lackner and R. Ziegler 599

Correspondence between plasma mevalonic acid levels and deuterium uptake in measuring human cholesterol synthesis
P. J. H. Jones, A. S. Pappu, D. R. Illingworth and C. A. Leitch 609

Pancreatic and pituitary hormonal responses to insulin-induced hypoglycaemia during muscarinic cholinergic blockade in man
B. M. Fisher, D. A. Hepburn, B. M. Frier, J. J. Morton, G. H. Beastall, C. E. Gray and K. D. Buchanan 614

Experimental variations in renovascular resistance in normal man as detected by means of ultrasound
M. Bardelli, G. Jensen, R. Volkmann, K. Caidahl and M. Aurell 619

Effect of lipid A on the deformability, membrane rigidity and geometry of human adult red blood cells
J. M. B. Pöschl and O. Linderkamp 625

Colchicine analogues: Effect on amyloidogenesis in a murine model and, *in vitro*, on polymorphonuclear leukocytes
B. Wolach, M. Gotfried, A. Jedeikin, M. Lishner, A. Brossi and M. Ravid 630

Number 10, October 1992

Commentary: Abnormal neuroendocrine immune communications in patients with rheumatoid arthritis
I. C. Chikanza, G. Chrousos and G. S. Panayi 635

Increased tissue concentrations of the gastrin precursor in patients treated with omeprazole
J. Nemeth, A. Varro, J.Bridson, R. Walker and G. J. Dockray 638

Supplementation with n-3 fatty acids reduces triglycerides but increases PAI-1 in non-insulin-dependent diabetes mellitus
M. Boberg, T. Pollare, A. Siegbahn and B. Vessby 645

Late-onset congenital adrenal hyperplasia in women with hirsutism
M. A. Arnaout 651

In vitro immune modulation of polymorphonuclear leukocyte adhesiveness by sodium fluoride
J. L. Gómez-Ubric, J. Liébana, J. Gutiérrez and A. Castillo 659

Haemodynamic and renal effects of urodilatin bolus injections in patients with congestive heart failure
M. Kentsch, D. Ludwig, C. Drummer, R. Gerzer and G. Müller-Esch 662

Antibody mediated enhancement of HIV-1 infection of an EBV transformed B cell line is CD4 dependent
H. S. L. M. Nottet, I. Janse, N. M. De Vos, L. J. Bakker, M. R. Visser and J. Verhoef 670

Transforming growth factor alpha and atrial natriuretic peptide in white adipose tissue depots in rats
D. L. Crandall, G. Gordon, H. E. Herzlinger, B. D. Saunders, R. C. Zolotor, P. Cervoni and J. G. Kral 676

Circulating inhibitor of interleukin 1 activity in patients with chronic renal diseases
Z. Ramić, N. Dimković, Lj. Djukanović, M. Lazić, S. Stepanović, M. Simić and M. L. Lukić 681

The effects of dietary supplementation with n-3 polyunsaturated fatty acids in patients with rheumatoid arthritis: a randomized, double blind trial
G. L. Nielsen, K. L. Faarvang, B. S. Thompsen, K. L. Teglbjaerg, L. T. Jensen, T. M. Hansen, H. H. Lervang, E. B. Schmidt, J. Dyerberg and E. Ernst 687

Rapid Communication: The critical role of magnesium ions in osteoclastmatrix interaction: implications for divalent cations in the study of osteoclastic adhesion molecules and bone resorption
M. Makgoba and H. K. Datta 692

Number 11, November 1992

Review: T-lymphocytes and the pathogenesis of type 1 (insulin-dependent) diabetes mellitus
B. O. Roep and R. R. P. De Vries 697

Surfactant protein A (SP-A) is decreased in acute parenchymal lung injury associated with polytrauma
U. Pison, U. Obertacke, W. Seeger and S. Hawgood 712

Plasma lipids affect maximum velocity not sodium affinity of human sodium-lithium countertransport: distinction from essential hypertension
P. A. Rutherford, T. H. Thomas, M. F. Laker and R. Wilkinson 719

The glucoregulatory and antilipolytic actions of insulin in abdominal obesity with normal or impaired glucose tolerance: an *in vivo* and *in vitro* study
P. Cavallo-Perin, A. Bruno, M. Cassader, L. Cesco, G. Gruden and G. Pagano 725

Leukotriene B_4 level in stimulated blood neutrophils and alveolar macrophages from healthy and asthmatic subjects. Effect of beta-2 agonist therapy
Y. Pacheco, R. Hosni, B. Chabannes, F. Gormand, P. Molliere, M. Grosclaude, D. Piperno, M. Lagarde and M. Perrin-Fayolle 732

Prolonged sleep deprivation induced disturbed liver functions, serum lipid levels and hyperphosphatemia
Y. Ilan G. Martinowitz, O. Abramsky, G. Glazer and P. Lavie 740

Bile acid active and passive ileal transport in the rabbit: effect of luminal stirring
R. Aldini, A. Roda, P. L. Lenzi, G. Ussia, M. C. Vaccari, G. Mazzella, D. Festi, F. Bazzoli, G. Galetti, S. Casanova, M. Montagnani and E. Roda 744

Multi-frequency bioelectrical impedance augments the diagnosis and management of lymphoedema in post-mastectomy patients
L. C. Ward, I. H. Bunce, B. H. Cornish, B. R. Mirolo, B. J. Thomas and L. C. Jones 751

Early diagnosis of the multiple endocrine neoplasia type 2 syndrome: consensus statement
C. Calmettes, B. A. J. Ponder, J. A. Fischer, F. Raue and The Members of the European Community Concerted Action: Medullary Thyroid Carcinoma 755

Number 12, December 1992

Conference Report: New horizons in the pathogenesis of coronary heart disease
M. Oliver 761

Commentary: Prediction of bone loss in postmenopausal women
A. Blumsohn and R. Eastell 764

Can urinary pyridinium crosslinks and urinary oestrogens predict bone mass and rate of bone loss after the menopause
P. A. Mole, M. H. Walkinshaw, S. P. Robins and C. R. Paterson 767

Autoantibodies to insulin have similar affinity to that of antibodies to exogenous but lower binding capacity
P. Vähäsalo 772

Effect of intravenous polyunsaturated phosphatidylcholine infusion on insulin receptor processing and lipid composition of erythrocytes in patients with liver cirrhosis
A. Cantafora, R. Masella, M. Angelico, C. Gandin, R. J. Blount and S. W.Peterson 777

Anti-neutrophil cytosplasm antibodies, anti-GBM antibodies and anti-dsDNA antibodies in glomerulonephritis
P. Bygren, N. Rasmussen, B. Isaksson and J. Wieslander 783

Effects of the new somatostatin analogue (BIM 23014) on blood glucose homeostasis in normal men
J. M. Kuhn, C. Basin, M. Mollard, B. De Rouge, B. Schatz and L. M. Wolf 793

Extra-hepatic cholestasis determines a reversible increase of glycoproteic tumour markers in benign and malignant diseases
D. Basso, T. Meggiato, C. Fabris, M. Plebani, P. Fogar, M. P. Panozzo and G. Del Favero 800

Compositional analysis of the collagenous bone matrix. A study on adult normal and osteopenic bone tissue
B. Bätge, J. Diebold, H. Stein, M. Bodo and P. K. Müller 805

Post-prandial lipoprotein metabolism in nephrotic syndrome
G. L. Warwick, C. J. Packard, J. P. Stewart, T. D. G. Watson, L. Burns, J. M. Boulton-Jones and J. Shepherd 813

Short-term indomethacin administration does not impair excretion of acute potassium load in humans
M. Van Buren, H. J. M. Van Rijn and H. A. Koomans 821

Postprandial control of gallbladder contraction and exocrine pancreatic secretion in man
C. Beglinger, P. Hildebrand, G. Adler, B. Werth, H. Luo, F. Delco and K. Gyr 827
